

Who Are We?

We are a diverse group of individual REALTORS who volunteer our time and talents to improve the physical condition of a selected home. GCHAR partners with community vendors and workers who provide the materials and expertise to get the job done.

What Do We Do?

The volunteers focus on interior and exterior deficiencies and attempt to either rebuild or remodel defective areas.

Who Qualifies as a Candidate and How are They Chosen?

Our candidate generally is a homeowner who is currently facing a physical or financial hardship which prevents them from maintaining the structure, systems or safety of their home. Each application is evaluated for need and the home is carefully inspected by a NC Licensed Home Inspector to identify needs and structural soundness of the home before any renovations or repairs can be preformed.

How Can You Help?

We rely strictly on self generated fundraising projects and donations from local stores, general contractors and vendors. We know times are tough for everyone now and we are trying to minimize the burdens to any one company this year by requesting donations from a multitude of sources. In past years, our financial outlay over and above volunteer hours and donated materials has been approximately \$4,000 to \$5,000.

We have two specific requests this year.

- We are requesting a \$500 dollar voucher to be used toward purchasing items needed to complete the repairs of the selected home.
- This will be our 6th Annual project and we are also in need of putting together a basic tool bag to be passed on each year.

We appreciate your consideration on the above request and want to let you know every little bit helps.
